

FIRST: Click the 'Design' tab.

SECOND: Click the 'Page Setup' icon.

THIRD: Using the drop down menu, select the desired aspect ratio. In this case it is 16:9.

FOURTH: Click 'OK' to apply.

FIRST: Click the 'File' tab.

SECOND: Click the 'Page Setup' tab.

THIRD: Enter '16' in the Width box

FOURTH: Enter '9' in the Height box

FIFTH: Click 'OK' to apply.

The screenshot shows the Microsoft PowerPoint 2003 interface. The 'File' menu is open, and 'Page Setup...' is selected. The 'Page Setup' dialog box is open, showing 'Slides sized for: Custom', 'Width: 16 cm', and 'Height: 9 cm'. The 'Orientation' section has 'Landscape' selected for both 'Slides' and 'Notes, handouts & outline'. The 'OK' button is highlighted.
